Proprietary IP

Our VTX™ (Virtual Training Xperience) is SSB with ISV's proprietary Virtual GTO Ground — a first-of-its-kind digital replication of physical group tasks. This must always appear with the ™ mark. BRAND MARK SYSTEM — TWO LOGOS

SSB with ISV operates two complementary marks. The **Primary Wordmark** (SSB with ISV) is used across all digital surfaces, navigation, and marketing. The **ISV Crest** (Integrated SSB Virtuosos) is the institutional seal — used on formal documents, apparel, certificates, and community identity materials.

CREST ANATOMY & MEANING

INTEGRATED SSB VIRTUOSOS

The full institutional name arching across the top of the outer ring — asserting identity and origin.

REFUSE TO SINK

The brand's founding ethos — unwavering resilience. Anchored literally and figuratively at the heart of the crest. Must never be altered or omitted.

ANCHOR + WINGS + CROSSED RIFLES

The tri-services symbolism – Navy (anchor), Air Force (wings), Army (rifles). Represents the joint-services identity of CSJSA.

SANSKRIT MOTTO

"वक्ता निद्रियं विहितः समुपे" – arching along the lower ring. The Sanskrit inscription grounds the institution in classical Indian tradition.

GOLD ON BLACK

The crest is always rendered in the brand gold (#d2a100 → #e0c214 gradient) on black. Never invert, recolour, or place on a light background.

MINIMUM CLEAR SPACE

Always maintain a clear space equal to the height of the logo's inner mark (approximately 1x) on all sides. Never crowd the logo with text or graphic elements.

MINIMUM SIZE

✓ Do

- Use the logo on dark backgrounds only (our brand background palette)
- Maintain clear space on all sides
- Use the logo at approved minimum sizes
- Pair the logo with "SSB With ISV" in Barlow Condensed Medium at approved sizes
- Use the full PNG with transparency preserved

✗ Don't

- Place the logo on light or busy backgrounds
- Stretch, rotate, or distort the logo mark
- Apply drop shadows or glow effects not in the brand system
- Recreate the logo in any other typeface or colour
- Use the logo smaller than the approved minimum size

DECORATIVE SYSTEM

Three decorative elements: brass orbs (rgba(158,131,52,0.35), radii 80-320px), dot grid texture (50% opacity), and bronze accent dots (12-20px, #71600a). Never use more than one orb per viewport quadrant.

Voice & Tone

Authoritative

We speak from direct, lived experience. Every claim is backed by credentials and data. We never hedge, never inflate. Our authority comes from 12,500+ candidates assessed and 160+ officers commissioned.

DO SAY

"Assessed over 12,500 candidates. Youngest GTO since 1947."

DON'T SAY

"We're really good at SSB prep, try us!"

Purposeful Precision

We use military economy of language — short, direct, structured. No padding, no filler. Section headings are commands or precise descriptors. CTAs are verbs that invite action, not requests that beg.

DO SAY

"Roger That. Sign Up Now. Know More."

DON'T SAY

"Click here to possibly find out a bit more about what we do."

Warm Mentorship

Beneath the discipline is genuine care. We speak to aspirants as a trusted senior officer would — with high standards and sincere belief in their potential. Never cold, never transactional.

DO SAY

"Every deserving young aspirant can realise the dream of becoming a commissioned officer."

DON'T SAY

"Buy our course to pass the SSB."

Mission-First

We lead with purpose, not product. Our communication always frames the aspirant's journey as the hero story. Our role is the guide, not the centrepiece. Institutional pride is shown through outcomes, not boasts.

DO SAY

"Crafting the future of Indian Military Leadership."

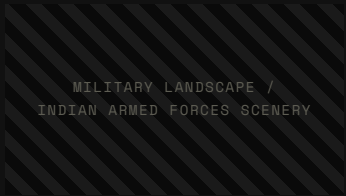

DON'T SAY

"India's #1 SSB coaching institute!"

Imagery & Photography

Hero Photography

Full-bleed military photography — aircraft formations, naval vessels, land forces in formation. Always desaturated via our dark overlay formula. Never stock-looking or generic.

Mentor Portraits

Circular crop (300×300px), 1.5px border in #d9d9d9. Dark overlay: linear-gradient(rgba(0,0,0,0.2), rgba(0,0,0,0.2)). Position the subject's face centred in the circle.

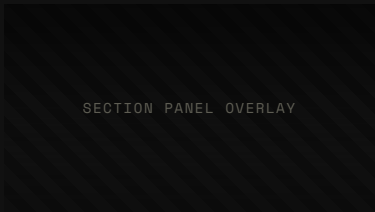

Training & Community

Real photos from SSB exercises, group tasks, training scenarios. Authenticity over polish. Always apply our dual-gradient overlay to maintain brand darkness and cohesion.

STANDARD OVERLAY FORMULA

Standard dual-gradient overlay applied to all background images. Top/bottom dark vignette + uniform dark wash.

Heavier overlay variant for section panels that need text legibility. Adds a 40% black tone-down from top-half.

Subtle 20% black overlay only — used on portrait/headshot images in circular frames. Preserves face detail.

✓ PHOTOGRAPHY DO'S

- Use authentic Indian Armed Forces imagery
- Apply the dual-gradient overlay formula consistently
- Use circular crops with the 1.5px border for portraits
- Prefer landscape orientation for hero sections (16:9)
- Show real SSB activities, group tasks, and training moments

✗ PHOTOGRAPHY DON'TS

- Use cheerful, high-key or overly bright stock photography
- Place any image without the overlay treatment
- Use foreign military imagery (always Indian Armed Forces)
- Use heavily filtered or artificially coloured photography
- Crop portraits in any shape other than the approved circle
